

AUTOID 10-DPM

DPM Mobile Terminal Designed For Industrial Use

A new platform will combine powerful "Core" capabilities with fast and accurate AI scanning. Design the battery back cover so that it is easy to replace battery. When it comes with a special designed diffuse light cover, and can intelligently adjust the lighting mode, it makes the DPM reading ability to a unparalleled level, it greatly improve the reading ability on reading laser engraved code on PCB and metal, low contrast, dot peen, uneven code on curved, reflective or colored background, also can reading invisible code, Furthermore, It's designed to enhance human-computer interactions in several ways, including more precise reminders and a more intuitive terminal operation.

Product Features

Wi-Fi6 Ready technology
